PrimCorp, LLC is a minority owned small business certified by the Veterans Administration as a Service Disabled, Veteran Owned Small Business. We are a management consulting company comprised of skilled professionals who are ready to serve the comprehensive needs of the Government. Our services include program management, acquisition management, logistics operations, business process reengineering, training development, and automated solutions.

At PrimCorp, we are focused on successfully managing and executing our client’s key business processes from an outcome-based perspective across the total program life cycle while mitigating risks and optimizing performance. As an alternative to focusing on isolated, short-term processes within a lifecycle (such as the pre-award or closeout phases of a program), PrimCorp takes a comprehensive integrated approach that focuses on incorporating the critical elements of reliability, sustainability, and cost effectiveness from the start and across the entire project lifecycle – and in doing so, achieving the best value for our clients.

Together in partnership with our customers, we design long-term strategies to achieve the desired outcomes that maximize program and mission performance, efficiency and impact. We approach each commitment with the resolve to deliver reliable, cost effective, long-term solutions in the following related areas:

❖ ***Program Management***

- Project forecasting and scheduling
- Project management
- Performance monitoring and measurement
- Communications planning
- Policy development
- Change control
